

Children and Adolescent Access to Primary Care Practitioners (CAP)

The measure includes children 12-19 years of age who were continuously enrolled in Louisiana Medicaid during the measurement year and the year prior to the measurement year. The rate (percentage) shows how many of these children had a visit with a primary care provider (PCP) during that year or the year prior to the measurement year.

Notes:

- Rates shown are for Medicaid-only recipients.
- Rates shown for 2006 through 2011 exclude Medicare dual eligibles and third-party liability.
- Claims for 2006 through 2011 have a 6-month claim lag.
- Definition of primary care providers includes clinics or group practices.
